4. HEALTH AND SAFETY POLICY STATEMENT

Multi-Alarm Systems (GB) Ltd. is committed to discharging its full statutory responsibilities in respect of health, safety and welfare at work.

The Company fully supports the aims and objectives of:

- The Health and Safety at Work, etc. Act 1974.
- The Control of Substances Hazardous to Health Regulations 1988 (COSHH).
- The Management of Health and Safety at Work Regulations 1992
- The Provision and Use of Work Equipment Regulations 1992.
- The Construction (Design and Management) Regulations 1994 (CDM).

The company always uses its best endeavours to ensure that its procedures and practices comply with the requirements of the act and associated regulations, and that it provides, as far as is reasonably practicable, a healthy and safe working environment for employees; and ensures the health and safety of others whom its operations may affect.

This includes the functions and duties of 'Principal Contractor' or 'Specialist Contractor' - as defined in the Construction (Design and Management) Regulations 1994 - and where so engaged, those of 'Planning Supervisor' or 'Designer'; all for Projects involving Fire Protection and Security systems installation only.

The company realises these objectives through its qualified professional engineering resources that have occupational health & safety, and CDM regulations competency obtained through development training.

In formulating and reviewing its policy, the company takes all due account of legislation and guidance from the Health and Safety Executive and other specialist advisors.

Full details of Multi-Alarm Systems (GB) Ltd Health and Safety arrangements are provided in the Company's detailed Safety Policy statement.

F. N. Skuse

Chairman

5. BUSINESS STRATEGY AND QUALITY POLICY

The business strategy of Multi-Alarm Systems (GB) Ltd. is to provide design, installation and maintenance of electronic Fire Detection & Alarm Systems and Electronic Security Systems in accordance with best professional practice and at a reasonable financial return.

Additionally, the company shall provide component parts of Fire Alarm and related systems for use by other parties.

The key to success in our competitive environment is to continually strive to increase customer satisfaction by providing the maximum confidence that our services meet the requirements of contracts and specifications and ensuring our customers that our business is committed to continual improvements.

To this end, the company has developed and implanted a quality management system that meets the requirements of BS EN ISO 9001: 2008, the NSI Quality Schedule FSQS121 and BAFE SP203 Scheme (*NSI Fire [Gold] -The Design, Installation Commission & Handover and Maintenance of Fire Detection & Alarm Systems*) and NSI Quality Schedule SSQS101 (*NACOSS [Gold] - The Design, Planning, Installation and Maintenance of Electronic Security Systems*).

- All employees are committed to meeting the regulatory, legal and environmental expectations of the industry as specified by insurers, police, professional institutions and relevant Trade Associations.
- The company provides an environment to encourage employees at all levels to direct their abilities to the benefit of the organisation and their own personal satisfaction; such a policy attracts the best people in our field.
- Management keep abreast of technological changes and innovations that may be of benefit to existing markets and provide a direction to new business areas.
- Measures exist in essential core areas of the business to indicate how well the business is performing.

This not only includes basic business measures such as cash flow, sales, capital expenditure etc, but also complaint resolution criteria, false alarm statistics and contractual obligations such as routine maintenance achievement and call out response times.

Additionally, data is gathered to determine success in continually satisfying the expectations of the customer.

J. Skuse

Managing Director
